## 2025

23-27 SEPTEMBER

COPENHAGEN

### SEPTEMBER 27th, 2025 – Saturday

#### HALL A3

13:00 – 15:00

#### WORKSHOP / BEEKEEPING FOR RURAL DEVELOPMENT

##### **Bee-lieve in Youth: Cultivating the Next Generation of Beekeepers'**

*Moderators: Zahira Nedjraoui & Megan Denver & Jane Barnes*

Bee-lieve in Youth at Apimondia brings together a vibrant group of young leaders and innovators who are shaping the future of beekeeping around the world.

You'll learn about shared apiary spaces in the Czech Republic and youth clubs that foster hands-on learning, to mobile apps making beekeeping education fun and accessible.

We'll also hear about inspiring projects that are bringing beekeeping into schools in rural Zimbabwe, empowering indigenous youth to build sustainable mad honey enterprises in Nepal, and large-scale educational efforts in China to connect tradition with new beekeepers.

These presentations highlight how young people from across the globe are opening up new opportunities, building community, learning from experienced beekeepers, and working to keep beekeeping strong and sustainable for the future.

13:00 – 13:05	Welcome
